

C:/Users/nicko/source  
/repos/APTX1\_1/Core/Inc  
/screen\_controller.h

```
graph TD; A["C:/Users/nicko/source<br>/repos/APTX1_1/Core/Inc<br>/screen_controller.h"] --> B["stdint.h"]; A --> C["hardware.h"]
```

The diagram illustrates a file path structure. At the top, a gray rectangular box contains the path: C:/Users/nicko/source /repos/APTX1\_1/Core/Inc /screen\_controller.h. Two blue arrows originate from the bottom center of this box. The left arrow points to a white rectangular box labeled 'stdint.h'. The right arrow points to another white rectangular box labeled 'hardware.h'.

stdint.h

hardware.h
